ATTACHMENT B
LIST OF ITEMS TO BE SEIZED AND SEARCHED

The residence of Jordan Brewer, 2513 Polk Avenue, Ogden Utah for the following, as they relate to the crime of manufacture, possession, distribution and/or receipt of child pornography:

1. Computer Hardware: Computer(s), computer hardware, software, related documentation, passwords, data security devices (as described below), videotapes, video recording devices, video recording players, monitors and or televisions, and data were instrumentalities of and will contain evidence related to this crime. The following definitions apply to the terms as set out in this affidavit and attachment:

(1) Computer Hardware
Computer hardware consists of all equipment which can receive, capture, collect, analyze, create, display, convert, store, conceal, or transmit electronic, magnetic, or similar computer impulses or data. Hardware includes any data-processing devices (including but not limited to central processing units; internal and peripheral storage devices such as fixed disks, external hard drives, floppy disk drives and diskettes, and other memory storage devices); peripheral input/output devices (including but not limited to keyboards, printer, video display monitors, and related communications devices such as cables and connections), as well as any devices, mechanisms, or parts that can be used to restrict access to computer hardware (including but not limited to physical keys and locks).

(2) Computer Software
Computer software is digital information which can be interpreted by a computer and any of its related components to direct the way they work. Software is stored in electronic, magnetic, or other digital form. It commonly includes programs to run operating systems, applications, and utilities.

(3) Documentation
Computer-related documentation consists of written, recorded, printed, or electronically stored material which explains or illustrates how to configure or use computer hardware, software, or other related items.

(4) Passwords and Data Security Devices

Computer passwords and other data security devices are designed to restrict access to or hide computer software, documentation, or data. Data security devices may consist of hardware, software, or other programming code. A password (a string of alpha-numeric characters) usually operates a sort of digital key to "unlock" particular data security devices. Data security hardware may include encryption devices, chips, and circuit boards. Data security software of digital code may include programming code that creates "test" keys or "hot" keys, which perform certain pre-set security functions when touched. Data security software or code may also encrypt, compress, hide, or "booby-trap" protected data to make it inaccessible or unusable, as well as reverse the progress to restore it.

2. Any and all notes, documents, records, or correspondence pertaining to child pornography as defined under Title 18, United States Code, Section 2256 (8).

3. Any and all diaries, address books, names, and lists of names and addresses of individuals who may have been contacted by use of the computer for the purpose of distributing child pornography.

4. Any and all correspondence identifying persons transmitting, through interstate commerce including by United States Mails or by computer, any visual depictions of minors engaged in sexually explicit conduct, as defined in Title 18, United States Code, Section 2256(2).

5. Any and all records, documents, invoices and materials that concern any accounts with Comcast, or any other Internet Service Provider which may have been used .

6. Any and all visual depictions of minors engaging in or involved in obscene or pornographic actions or displays.

7. Any and all address books, mailing lists, supplier lists, mailing address labels, and any and all documents and records pertaining to the preparation, purchase, and acquisition of names or lists of names to be used in connection with the purchase, sale, trade, or transmission, through interstate commerce including by United States Mails or by computer, and visual depiction of minors engaged in sexually explicit conduct, as defined in Title 18, United States Code, Section 2256(2).

8. Any and all address books, names, and lists of names and addresses of minors visually depicted while engaged in sexually explicit conduct, as defined in Title 18, United States Code, Section 2256(2).

9. Any and all documents, records, or correspondence pertaining to occupancy at 2513 Polk Avenue, Ogden, Utah and other's occupancy therein.

10. Any digital cameras or memory cards and/or SD cards, with capability of taking and/ or storing images of child pornography.

11. Any communication device (i.e. cellular telephones) with the capability to store images, take pictures and or communicate via text message with minors or other individuals involved in the sexual exploitation of children.

12. Any and all diaries, notebooks, notes, and any other records reflecting personal contact and any other activities with minors visually depicted while engaged in sexually explicit conduct, as defined in Title 18, United States Code, Section 2256(2).

13. Any of the items described above which are stored in the form of magnetic or electronic coding on computer media or on media capable of being read by a computer with the aid of computer-related equipment, including floppy diskettes, fixed hard disks, or removable hard disk cartridges, software or memory in any form. The search procedure of the electronic data contained in computer operating software or memory devices may include the following techniques:

(a) surveying various file "directories" and the individual files they contain (analogous to looking at the outside of a file cabinet for the markings it contains and opening a drawer believed to contain pertinent files);

(b) "opening" or cursorily reading the first few "pages" of such files in order to determine their precise contents;

(c) "scanning" storage areas to discover and possibly recover recently deleted files;

(d) "scanning" storage areas for deliberately hidden files; or

(e) performing key word searches through all electronic storage areas to determine whether occurrences of language contained in such storage areas exist that are intimately related to the subject matter of the investigation.
